

KEVIN RODRIGUEZ

FULL-STACK DEVELOPER

3+ years of experience delivering production-ready web applications, taking projects from concept to deployment with minimal supervision.

Proven problem-solving skills and strong attention to detail, comfortable collaborating with international, agile teams and adapting quickly to existing codebases and workflows.

SKILLS

Frontend

- ✓ React
- ✓ JavaScript (ES6+)
- ✓ TypeScript
- ✓ Zustand
- ✓ TailwindCSS
- ✓ HTML & CSS

Backend

- ✓ Node.js, Express
- ✓ Strapi
- ✓ MongoDB
- ✓ Supabase, SQL
- ✓ Python
- ✓ API REST

Frameworks & more

- ✓ Next.js
- ✓ Astro
- ✓ AI Integration
- ✓ Git, GitHub
- ✓ Figma
- ✓ UI/UX

EXPERIENCE

Freelance Full-Stack Developer

September 2025 – Present

Self-Employed · Remote · Full-time

- Designed and developed modern, scalable, and SEO-friendly web applications using Next.js, React, TypeScript, including dynamic routing, SSR/SSG, and responsive UI.
- Optimized application performance and Core Web Vitals, reducing load times by 70% through code-splitting, asset optimization, and Lighthouse-driven improvements.
- Implemented technical SEO best practices, improving indexability, metadata, accessibility, and overall site quality in alignment with client requirements.
- Maintained and extended existing production codebases in Next.js and Remix, collaborating with international clients and cross-functional teams using Git-based workflows to deliver reliable solutions.

Studymate [↗](#) — AI-powered study planner

October 2024 – June 2025

- Designed and built a feature-rich productivity platform focused on self-learning, progress tracking, and user engagement, integrating planning, task management, and assistant-driven workflows.
- Architected complex application flows and stateful user experiences, emphasizing scalability, maintainability, and clean UX across multiple interconnected views.

Pixi Paint [↗](#) — Retro pixel art platform

July 2025 – September 2025

- Designed and developed a user-focused, interactive web application centered on creative tooling, enabling users to create, manage, and share content with a strong emphasis on usability and accessibility.
- Built custom UI systems, client-side state handling, and content workflows, focusing on performance, scalability, and maintainable architecture.

EDUCATION

Universidad Simón Bolívar

Ingeniería Multimedia

2021 - 2026

10th semester

Self-Directed Learning

Advanced focus on modern web development, full-stack engineering, and game development through continuous independent study and hands-on projects.

LANGUAGES

Spanish (Native), English (C1).
